

POWER POEMS FOR GIRAFFES

7 FUN FACTS about the Giraffe

At a whopping 18 to 20 inches long, a giraffe's tongue is typically black, blue, or purple!

These are called "Ossicones"

Giraffes are the **TALLEST** mammals on Earth!

Q. Who do you think has more bones in their neck?
- People or Giraffes -

A. They have **THE SAME!**
(Giraffe neck bones are just much longer.)

Wild giraffes live only in Africa, south of the Sahara Desert

A baby giraffe is called a calf. Giraffe calves can stand up 30 minutes after being born!

How is a giraffe like a fingerprint?

No two giraffes have the same spot pattern, just as no two people have the same fingerprints!
