

**MAKE AN ORIGAMI GIRAFFE
WITH POWER POEMS FOR GIRAFFES**

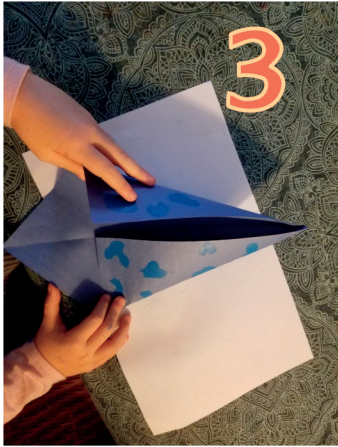

By Carey & Simone

Decorate a square of paper.

Flip over & fold in half.

Unfold, then fold in the corners to make a triangle on top.

Fold entire paper in half. The open edge should be on the left

Fold left side of the triangle to the right.

Fold the top part of the new fold to the left, making the giraffe's head.

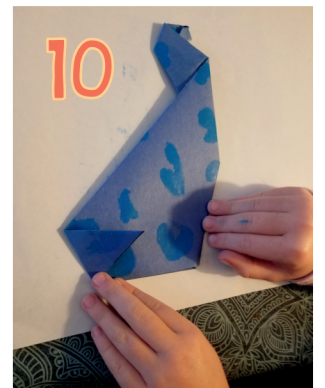

Fold the tip of this new triangle under.

This is what it should look like so far.

Flip the giraffe over, fold the left corner to the right.

Now fold the tip of this new triangle back to the left.

It should look like this.

Flip your giraffe over and you will see a "tail".

Use scissors (or ask an adult for help) cutting a square to make legs.

Draw your giraffe a face. YOU DID IT!!!!!!
